SMARTER. TOUGHER.

INTRODUCING THE MAHINDRA OJA 1100 & 2100 SERIES

In today's rapidly changing farming world, staying ahead means being both smarter and tougher. Smart technology boosts efficiency, while a tough build ensures resilience and reliability. The Mahindra OJA 1100 and 2100 Series are built with both in mind; the ultimate subcompact and compact tractor duo designed for your lifestyle.

The OJA 1100 Series is a reliable workhorse, equipped with intelligent features and ergonomically designed operator station, perfect for both newcomers and experienced operators. It's tough enough to handle estate maintenance and small-acreage tasks with ease. Meanwhile, the OJA 2100 Series takes performance to the next level, delivering advanced capabilities and the perfect power-to-weight balance.

From homeowners to professional landscapers, this series is engineered for versatility. Both models ensure fuel efficiency, comfort and reliability that consistently surpass expectations.

1100 & 2100 SERIES

INTELLIGENCE IN ACTION

Efficiency thrives with innovation, and the Mahindra OJA 1100 and 2100 Series offer intuitive features designed to make the day smoother and more productive. Every task becomes easier with their smart features, transforming work into a seamless experience.

CLEVER CAPABILITIES

Car Like Pedal Shift

Car-Like Pedal Shift: Experience effortless gear changes with a system that mimics the ease of driving a car. This reduces operator fatigue and allows greater focus on the task at hand with greater control.

Quiet Power

The OJA Series minimises noise, vibrations and harshness; creating a quiet, productive workspace where work can happen all day without fatigue.

Comfortable Seating

The Seat, paired with standard power steering, ensures unmatched comfort for long hours in the seat; so that no task feels too long or tiring.

Spacious, Clutter-Free Platform

The flat and open design of the platform allows freedom of movement and a safer workspace, enhancing focus without unnecessary obstacles.

CONVENIENCE THAT'S INNOVATIVE

Hydrostatic Transmission

Eliminate gear-shifting with the Hydrostatic Drive System, offering infinite speed control for precise loader work. Colour-coded pedals allow smooth forward and reverse movement, while the joystick ensures fast, accurate handling for maximum efficiency.

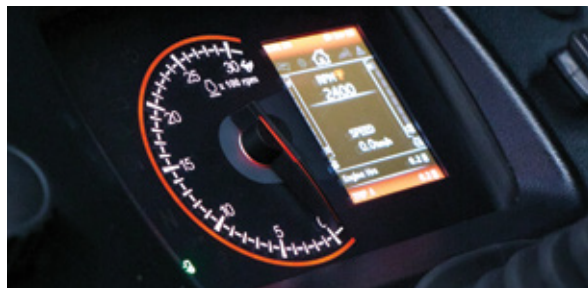

Ergonomic Controls

Every lever, knob and pedal is thoughtfully placed and clearly labelled for quick access and effortless operation, reducing fatigue and enhancing efficiency.

Push-Button PTO

Activating rear and mid-implements is a breeze with the touch of a button, making transitions faster and easier. Paired with hydrostatic forward and reverse pedals and an ultra-smooth joystick, this system makes loader & mower work incredibly fast and competent.

Digital Dashboard

Track fuel levels and engine performance in real-time with the digital dashboard, ensuring constant control. This enhances operational efficiency through quick adjustments and informed decisions on the go - especially vital for night-time visibility.

Powered Connectivity

Designed with the operator in mind, the platform offers 12V and USB-A power outlets to help stay connected during long hours in the field.

Mid PTO Standard

Attach mid-mowers with ease, thanks to the standard mid PTO - adding versatility for a wide range of tasks.

Fuel-Filling Access

Large, strategically placed fuel tank fillers make refueling simple and efficient, even in tight spots.

Foldable ROPS

Foldable ROPS enhances maneuverability and offers easy storage, adapting effortlessly.

INDOMITABLE MIGHT

Tilttable Steering

Customisable to fit the operator's posture, the tilttable steering wheel ensures a stress-free ride, even during long, demanding workdays.

Efficient Linkage

The 2100 Series also features a 3-point CAT 1 hitch with lift arm telescoping stabilisers, enabling quick and easy implement hook-up.

Hydraulic Lift Strength

Handle large implements with ease, thanks to the powerful hydraulic system that increases productivity and smooth handling, even with the heaviest loads.

Unmatched Capability

No job is too big or small for OJA tractors. The 1100 Series handles landscaping and trenching with ease, while the 2100 Series tackles heavier tasks like rotary cutting and tilling. With smart implement options and rugged tyre choices for any terrain, OJA is ready for every challenge.

No matter how tough the task, the Mahindra OJA 1100 and 2100 Series are ever-ready to get it done. **Smarter. Tougher.**

FUTURE-READY DESIGN

Sleek, aerodynamic lines and advanced sensors make the OJA Series a modern farming tool that works smarter while looking sharp.
